

Frequently Asked Questions

Is my child the right fit for Project HAWKE?

Project HAWKE is looking for students who have ability and are looking to be extended and enriched across a range of subject areas. Students entering Project HAWKE will be able to demonstrate an ability to learn quickly and effectively. These students have a preference for Independent Learning and will be able to demonstrate a willingness to extend their skills into a range of different competencies.

Is there a cap on class numbers?

Whilst there is no fixed cap on student numbers for this program, the program will operate within the normal parameters of a school timetable and environment.

Will my child still be enriched outside of Project HAWKE?

Yes! Our highly trained and experienced staff will continue to support and extend the needs of each student throughout the college.

What if my child has strengths and weaknesses?

All children have strengths and weaknesses. Project HAWKE aims to examine the learning qualities and academic abilities of each student in order to best extend and enriched the student learning. If you child is excited about learning and challenging themselves, we encourage them to apply to see if Project HAWKE is the right fit for them.

What will the testing involve?

Project HAWKE is looking at how students think. It aims to understand how students process language, phrases, numbers, pictures, shapes, and patterns.

The next testing date is Friday 4th November 2022, 9am.

Students will need to complete the application process. Please contact our College Registrar for further information.

How will the program be delivered?

Project HAWKE is a dynamic, fast paced program. Students will comply with all required expectations as per the Australian Curriculum and will study similar topics and units as other students across New South Wales. Students will be continually challenged as the learning process, creative products, depth of content and differentiated learning environment is shifted to suit the needs of Project HAWKE students.

For the Whole of Their Life.
